

GRIZZLY VALLEY ATV CLUB

TRAIL DIFFICULTY RATINGS

“Ratings are "maximum"; i.e. most of the trail may be a rating "1", but there may be a difficult obstacle somewhere on the trail that may increase the rating to "3".

1. **Easy;** suitable for brand-new riders. Generally wide open and fairly flat, with minimal off-camber sidehills, and the occasional cross-ditch.
2. **Moderately easy;** suitable for new riders who are looking to expand their skills. Some minor off-camber sections, hill-climbs, rocks, mud, and other obstacles.
3. **Moderate;** suitable for riders with experience. Some off-camber sections, hill climbs, rocks, mud, water, and other obstacles. Some narrow or twisting areas requiring slow speeds, high shelf roads, trees, etc.
4. **Moderately difficult;** suitable for experienced riders who are looking for a bit of a challenge. May contain off-camber sidehills, rock climbing, narrow, twisting trails through the trees, steep sections, water crossings, deep mud, and plenty of the usual obstacles.
5. **Difficult;** suitable for very experienced riders only. Tough, technical trails, dirt-bike trails, tight squeezes, tires in the air, and lots of obstacles such as large rocks, bottomless mud, or deep water.

Wide open spaces

Mountain trails

Memories for a lifetime

Mount Spieker

Distance : 10 km one way

Difficulty: 2 - Moderately Easy

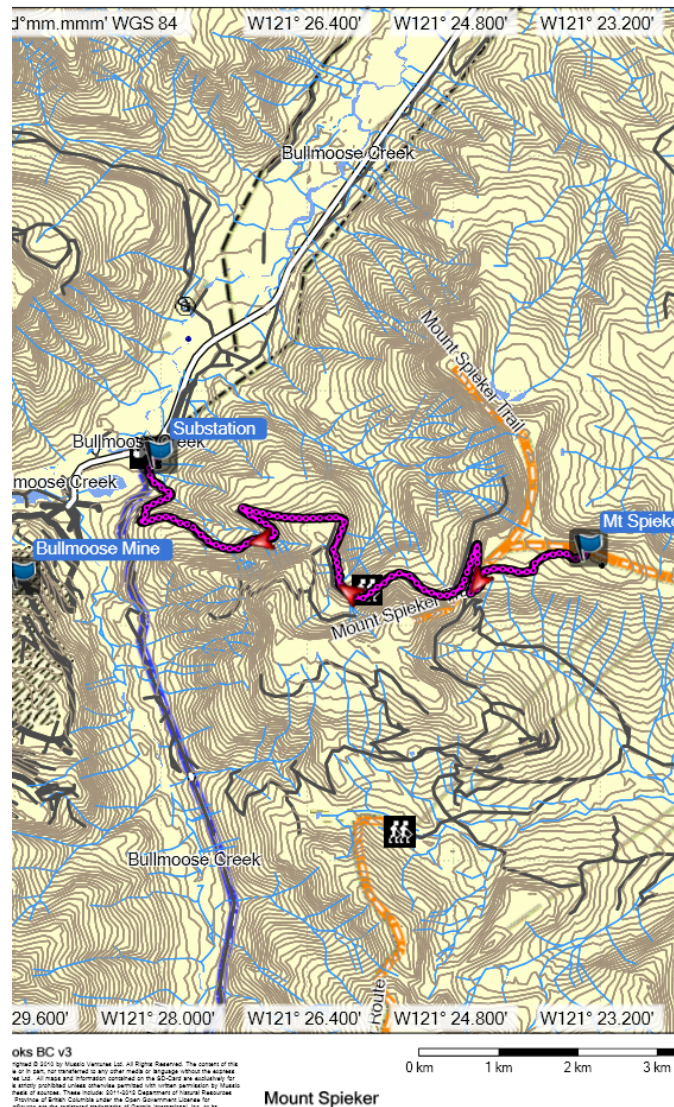

Mount Spieker

A must do ride when in the Bullmoose area, Mount Spieker is suitable for less experienced riders looking to sharpen their skills and offers some great photographic opportunities, particularly when the wildflowers are in bloom during July and August.

The actual summit of Mt Spieker (1971 m) lies to the east, along a gentle 4 km long alpine ridge. The area is known for birds such as ptarmigan and golden eagle, many marmots make their homes among the rocks, and caribou are often spotted in the alpine.

There's always time to stop, take a well deserved break and enjoy the scenery

DIRECTIONS:

From the Co- Op bulk station drive north towards Chetwynd on Highway #29 for 26 km to the turnoff for the Bullmoose Mine road.

Follow the Bullmoose Mine road for 17 km and turn left onto the Windfall Creek Forest Service Road. Just before an electrical substation, turn left and there you will find a 'parking lot' where you can offload.

Approximately 0.5 km on the Windfall Creek road turn left and begin climbing on a little used road. 4 km further on watch for the trail, on the right, which leaves the road by climbing a small embankment. The trail follows a now deactivated coal exploration road along mountain sides, past a small waterfall and through a switchback to the right as you near the top. At the top of the switchback, heading east will bring you to the summit of Mount Spieker. Heading south will bring you to the Perry Creek Forest Service road and through to the Wolverine Valley.
